## Professional Summary

*I possess a strong foundation in front-end development technologies, including HTML, CSS, JavaScript, ReactJS, and GSAP. I have a deep understanding of web development principles and best practices, enabling me to create engaging and user-friendly web applications. My skills in ReactJS allow me to build complex and scalable user interfaces, while GSAP provides me with the tools to create dynamic and visually appealing animations. I am proficient in JavaScript and can implement a wide range of functionalities, from DOM manipulation to asynchronous programming. My expertise in HTML and CSS ensures the development of well-structured and visually appealing websites. I am eager to leverage my skills to contribute to a high-performing team and create exceptional user experiences.*

## Work Experience

### Intern at Academor

*As a skilled frontend developer, I have successfully built two websites from scratch. My expertise lies in creating user-friendly interfaces that are both visually appealing and highly functional. I have a strong understanding of HTML, CSS, and JavaScript, and I am adept at utilizing various frameworks and libraries to achieve optimal performance and scalability. My work is consistently delivered on time and within budget, exceeding client expectations.*

## Projects

### Expense Tracker

[Link to Demo](#)

*This tool empowers users to effectively manage their finances. It allows for setting and limiting budgets, tracking recent transactions, and visualizing spending patterns through intuitive graphs. The system provides users with a comprehensive overview of their financial activity, enabling informed decision-making and achieving financial goals.*
