Professional Summary

Please provide me with the text you'd like me to make ATS-friendly. I need the content to work with! Once you give me the text, I can:

- * **Use keywords relevant to MERN stack development.**
- * **Ensure proper grammar and spelling.**
- * **Optimize the format for Applicant Tracking Systems (ATS).**
- * **Write in a professional and concise manner.**

I'm ready to help you create a compelling and ATS-friendly resume or cover letter!

Work Experience

Intern

jun 2022 - may 2024

Please provide me with the text you would like me to make ATS-friendly. I need the original text to work with so I can rephrase it using keywords and action verbs that Applicant Tracking Systems (ATS) are designed to recognize. I can then ensure it's at least 50 words long and professionally written.

Projects

Expense Tracker

[Link to Demo](#)

This application empowers users to effectively manage their finances. It enables users to define and enforce budget limits, meticulously track recent transactions, and visualize spending patterns through clear graphical representations. This comprehensive approach to financial management provides users with valuable insights to make informed financial decisions.
